Ultimate expression of the legendary Porsche 993

993 Targa

The exquisite and elegant
Porsche 993 never had
a true TARGA version.

The time has come. KREINZEL has created one, maintaining the spirit of the original in the F and G series, with its striking metallic arch and “shell” glass.

Porsche 993 Targa By KREINZEL is born after years of research, creation and recreation performed by a highly skilled and multidisciplinary team. We thrive on paying a tribute to two of the finest Porsche works of art.

For three years, our team devised and tested cutting-edge technical solutions to achieve the best and most updated outcome of the Porsche 993 Targa.

Kreinzel

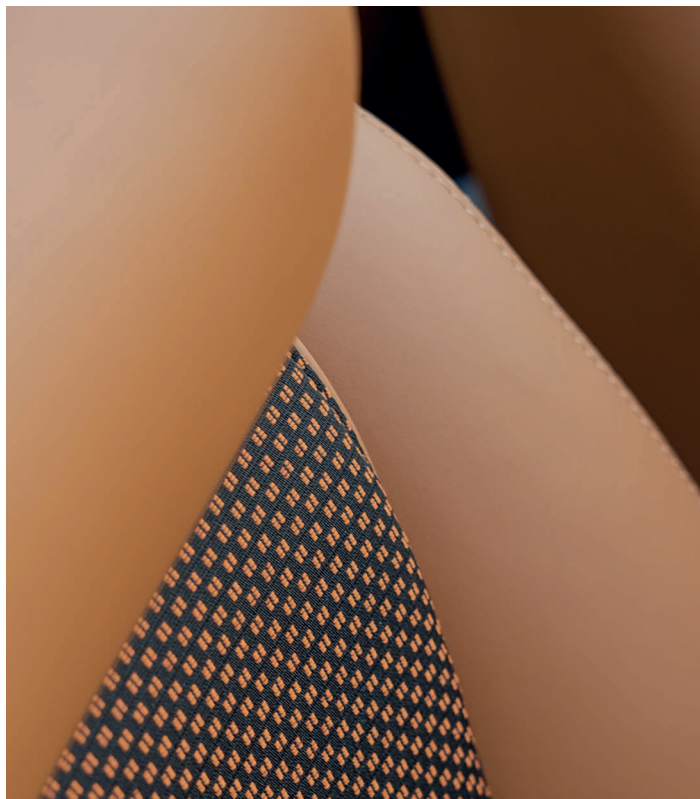

Each vehicle is rebuilt from the ground up, based on the **original Porsche 993** structure, but incorporating the **KREINZEL** concept which implies the integration of several components.

In the external part of the car, we developed the solution so that the metallic arch and “shell” glass configuration was possible, finishing details like chrome trims, exterior mirrors, wheels, whilst in the inside we improve the seats, dials, we add leather finishing interiors, steering wheel and the infotainment.

In addition to implementing our solution, each client can suggest further options to get a 100% tailormade car.

Our Story

The love for cars,
and particularly
Porsche

Kreinzel®

OUR STORY

The love for cars, and particularly Porsche, is what makes us stand out and work hard on what is ultimately a manifestation of admiration and passion for cars. With this drive, we gathered a specialized team in designing new interpretations and innovative technical solutions.

25 years of experience
in car restoration and
restomod projects

The KREINZEL brand was created after 25 years of experience in car restoration and restomod projects. With the accomplished expertise, and the continuous evolution of the team, adding other highly skilled professionals, KREINZEL creates custom restomod vehicles that meet specifications and exceed expectations, launching limited series of exclusive models.

We put our hearts
and souls in what we
do, and each project
is truly faced as part
of our legacy.
