Pennsylvania
Motor Vehicle Dept.
Bryn Mawr, PA**Registration issued or renewed**Have Questions? Please visit our Help Center at www.carfax.com.**Glossary****New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

INVOICE

Pre-purchase inspection for Vintage Aircooled Porsche; includes compression test

- Outer brake pad depth; front 6 mm, rear 6 mm. ✓
- Brake rotor condition; front Good mm, rear Good mm. ✓
- Tire tread depth; LF 7.4 mm, RF 7.4 mm, LR 7.4 mm, RR 7.1 mm. ✓
- Brake fluid condition; Visually clean ✓
- 1 of the 2 front oil cooler lines has been partially crushed (about 50% closed), and noticed gurgling sound near right rocker panel area, likely due to oil flow restriction in line. (*\$1300.00 Detail*)
- Drivers side cam hose leaking oil stage 2
- Trans fulcrum plate seeping stage 1
- Left rear brake caliper has minor to moderate drag.
- Front cat shield bracket is broken but still holding secure right now (*\$172.00*)
- Passenger side washer nozzle is inop, maybe clogged. *changed*
- All 4 side markers are out, possibly purposeful (people like the look of them off sometimes) ✓
- Left license plate light is out *Fixed*
- Seat belt warning inop (possibly purposeful)
- Mirror switch only works side to side. Switch is likely bad
- Vehicle has R134 A/C conversion

> 1500.00

Compression and leakdown numbers:

- Cyl 1: 190 psi 4% leakdown *anything over 10% is good.*
- Cyl 2: 195 psi 5% leakdown
- Cyl 3: 195 psi 3% leakdown
- Cyl 4: 195 psi 7% leakdown
- Cyl 5: 195 psi 2% leakdown
- Cyl 6: 200psi 2% leakdown

Cosmetic:

- Several rock chips on hood. *washed. minor*
- Right door and rear fender appear to be repainted. Sent pictures to client. *lower clear coat job. 2010.*

- Battery tests good @ 12.55v, 823CCA out of 900CCA ✓
- Alternator tests good at 14.35v ✓
- Starter voltage normal at 11.19v ✓

Labor: \$551.00	Parts: \$0.00	Sublet: \$0.00	Job Total: \$551.00

Client states the blinkers are inop...advise

Inspected fuse box. Found some fuses are old and some corrosion is starting to build up. Removed all fuses - cleaned contact points and tightened contacts. tighten all securing screws on fuse boxes. Replaced 10 fuses based off condition. Blinkers are functioning normally at this time.

11/14

Note front and rear marker lights don't come on. It's possible somebody pulled the bulbs intentionally. Additional diagnosis will be needed.

			Job Total: \$138.05	

Client had some other questions: Client had some other questions; Engine light and trunk lights don't work, Clock doesn't work, A/C doesn't seem to be working.

- Rear deck lid shocks are weak
- Horn button is falling off. Looks like a broken clip. Removed horn button and replaced clip and horn button is now secure
- Engine light works. Headlight switch must be in parking lights "on" position.
- Hood light has a bad or dirty contact point on the switch under the hood. Will work if fiddling with switch. Will need to remove switch and clean as next step. Was able to get it working pretty consistently by actuating it several times without disassembly.
- Removed clock. Confirmed power and ground. Recommend sending out for repair. Re-installed and clock is working for the time being.
- A/C compressor works (R134 conversion done). Charge seems to be low. Recommend evac and recharge is next step.
