This vehicle is equipped with a front bumper of a type that has been tested at an impact speed of 5 miles per hour and a rear bumper of a type that has been tested at an impact speed of 2.5 miles per hour, resulting in no damage to the vehicle's body and safety systems and minimal damage to the bumper and attachment hardware. Minimal damage to the bumper means minor cosmetic damage that can be repaired with the use of common repair materials and without replacing any parts. The stronger the bumper the less likely the vehicle will require repair after a low speed collision. This vehicle exceeds the current federal bumper standard of 2.5 miles per hour.
